ABOUT

Trained as a wise woman in the healing and spiritual arts, Zoe specializes in the childbearing year, postpartum recovery, and healthy home design. With a background and formal education in Anthropology, she has dedicated her life to studying cultures, philosophies, religions, and health practices from all over the world. She has traveled to five continents seeking better ways of living. Through her research she has discovered a variety of cultural traditions and practices that create high levels of health.

She is Indiana Jones meets Hildegard of Bingen meets Galadriel with a dash of Baltasar Gracian and a sprinkle of Lucille Ball. She would love to share her vision with you, invite her to speak at your next event.
