ABOUT

Trained as a wise woman in the healing and spiritual arts, Zoe specializes in the childbearing year, postpartum recovery, and healthy home design. With a background and formal education in Anthropology, she has dedicated her life to studying cultures, philosophies, religions, and health practices from all over the world. She has traveled to five continents seeking better ways of living. Through her research she has discovered a variety of cultural traditions and practices that create high levels of health.

She is part adventurer, part medicine woman, part philosopher, with a dash of satire and the soul of a poet. She would love to share her vision with you. Available for interviews and speaking events.
